Roush Propane-Fueled Ford F-250 to Tour the Midwest

The new Roush propane-fueled Ford F-250 pickup will tour the Midwest this September to show you and other farmers how you can do more with your tank of propane by putting this truck to work on your operation.

Sponsored by the Propane Education & Research Council (PERC) and Roush Performance, the propane F-250 pickup tour will include stops at farm shows, propane refueling stations, Ford dealerships, and real working farms. The two-week road trip will kick off in Rochester, Minn. on September 9, and includes stops in Iowa, Nebraska, and Illinois. It will end at the Farm Science Review in London, Ohio on September 24.

Visit www.propanepickup.com to learn more about this event AND to enter to win a trip for two to the NASCAR Sprint Cup Series race on October 17 at Lowe's Motor Speedway in Charlotte, N.C. The prize package includes a behind-the-scenes garage tour with Roush Fenway Racing, tickets to the race, hotel, and airfare. Visit www.propanepickup.com for more details about the contest.

See the new Roush propane-fueled Ford F-250 as it stops in a town near you. Visit www.propanepickup.com to follow the Roush propane-fueled Ford F-250 and find out where it will be stopping this September.
